Augmented Knowledge & Culture Springer This book outlines the development currently underway in the technology of new media and looks further to examine the unforeseen effects of this phenomenon on our culture, our philosophies, and our spiritual outlook. The digital revolution is something fundamentally different from simply the introduction of yet another medium to our culture: it marks a paradigm shift in our relation to all media, to all our senses, all our expressions. The new media are transforming our definitions of culture and knowledge and transcending barriers in ways that will have lasting implications for generations to come.

Apress Enterprise Manager 12c (EM12c), Oracle's newest and fully-integrated enterprise management product, now provides a complete cloud lifecycle management solution and enterprise environment management interface. Expert Oracle Enterprise Manager 12c opens up the secrets of this incredible management

tool, saving you time while enhancing your visibility as someone management can rely upon to deliver reliable database service in today's increasingly chaotic and change-driven IT environment. Expert Oracle Enterprise Manager 12c covers all the topics you demand and need to function effectively, from basic monitoring and configuration to advanced metric extensions and plugins. Real-life scenarios and demonstrations place you in the comfort zone of using the EM12c console, and the experienced author team provides deep understanding of the inner workings of this new Enterprise Manager. Database administrators and system administrators are expected to offer increasing levels of service for 24X7 systems and newer cloud environments. EM12c offers robust, end-to-end intelligent management of the complete environment. It includes direct, real-time integration with Oracle's online knowledgebase. Expert Oracle Enterprise Manager 12c helps you master this important tool and manage any challenge that comes your way. Provides example solutions to everyday problems through EM12c features. Explains the changes in EM12c, included trusted extensions. Focuses on advanced aspects of the EM12c interface.

Technology and Intimacy: Choice or Coercion IGI Global

The advent of the era of "e-Service," the provision of services over electronic networks like the internet, is one of the dominant business themes of the new millennium. It reflects the fundamental shift in the economy from goods to services and the explosive expansion of information technology. This book provides a collection of different perspectives on e-Service and a unified framework to understand it, even as the business community grapples with the concept. It features contributions from key researchers and practitioners from both the private and public sectors, as well leading scholars from the fields of marketing, information systems, and computer science. They focus on three key areas: the customer-technology interface; e-Service business opportunities and strategies; and public sector e-Service opportunities. The insights they offer will

be equally useful to students, scholars, and practitioners.

E-Service

The finance function can be regarded as the spider in the organizational web, as it has relations with every part of the organization and is also represented on the executive board. Therefore, it is of utmost importance that this function takes the lead by quickly transforming itself into a high-performance finance function (HPFF), serving as a role model for other functions in the organization. Building the High-Performance Finance Function describes the development of the high-performance finance function (HPFF) framework and explores the experiences, lessons learned, and results achieved by finance functions that have transformed themselves into "HPFFs," or high-performance finance functions, using the HPFF framework. Covering a range of topics such as excellence in finance and high-performance organizations, it is ideal for industry professionals, teachers, researchers, academicians, practitioners, and students.

Strategic Planning

Watch Ganesh Natarajan and Prameela Kalive talk about From Start-Up to Global Success: The Zensar Story It was February 2001 and Zensar Technologies was at crossroads. The shareholders of the company were still waiting for a maiden dividend, and profit margins were sliding. A new leadership team took charge and turned it around into one of the most successful Indian IT companies. In this interesting and insightful account, Ganesh Natarajan and Prameela Kalive reveal the

story behind Zensar's success—a story that has seen revenues multiply, share prices jump manifold, and customer satisfaction become an industry benchmark. This is one company that customers respect, employees love, and the community adores.
