Taylor uses performance theory to explore how public spectacle both builds and dismantles a sense of national and gender identity. Here, nation is understood as a product of communal "imaginings" that are rehearsed, written and staged - and spectacle is the desiring machine at work in those imaginings. Taylor argue that the founding scenario of Argentineness stages the struggle for national identity as a battle between men - fought on, over, and through the feminine body of the Motherland. She shows how the military's representations of itself as the model of national authenticity established the parameters of the conflict in the 70s and

80s, feminized the enemy, and positioned the public - limiting its ability to respond.

Northwestern University Press  
 An erudite and witty collection of Umberto Eco's essays on mass culture from the 1960s through the 1980s, including major pieces which have not been translated into English before. The discussion is framed by opposing characterizations of current intellectuals as apocalyptic and opposed to all mass culture, or as integrated intellectuals, so much a part of mass culture as to be unaware of serving it. Organized in four main parts, "Mass Culture: Apocalypse Postponed," "Mass Media and the Limits of

Communication," "The Rise and Fall of Counter-Cultures," and "In Search of Italian Genius," Eco looks at a variety of topics and cultural productions, including the world of Charlie Brown, distinctions between highbrow and lowbrow, the future of literacy, Chinese comic strips, whether countercultures exist, Fellini's *Ginger and Fred*, and the Italian genius industry. *From the Media to Mediations* Duke University Press

A magic-realism novel set in Ecuador which traces an eccentric family's history from the Conquest to modern times. One woman paints her face white for a portrait to hide her Indian origin, another weaves a carpet intended to

stretch to Rome so as to encourage the Pope to visit.

Perspectives

In many Latin American countries, guerrilla struggle and feminism have been linked in surprising ways. Women were mobilized by the thousands to promote revolutionary agendas that had little to do with increasing gender equality. They ended up creating a uniquely Latin American version of feminism that combined revolutionary goals of economic equality and social justice with typically feminist aims of equality, nonviolence, and reproductive rights. Drawing on more than two hundred interviews with women in

Nicaragua, El Salvador, and the Mexican state of Chiapas, Karen Kampwirth tells the story of how the guerrilla wars led to the rise of feminism, why certain women became feminists, and what sorts of feminist movements they built. *Feminism and the Legacy of Revolution: Nicaragua, El Salvador, Chiapas* explores how the violent politics of guerrilla struggle could be related to the peaceful politics of feminism. It considers the gains, losses, and internal conflicts within revolutionary women's organizations. *Feminism and the Legacy of Revolution* challenges old assumptions regarding revolutionary movements and the legacy of those movements for the

politics of daily life. It will appeal to a broad, interdisciplinary audience in political science, sociology, anthropology, women's studies, and Latin American studies as well as to general readers with an interest in international feminism.
