Sgt. Joe Massey (Retired)*

shuns the idea of being politically correct with this insider's account of what it's like to be a Washington, D.C. police

officer. He leads readers on a series of adventures that span thirty years in law enforcement, beginning as a police rookie in 1983, to his days with the force's elite SWAT team, to his days with the force's Harbor Patrol Branch, and right up to his retirement in 2012. He learned early on that being a police officer is like being an artist: It's open to interpretation. You must make nonbelievers believe and crush anyone who challenges your authority. Over time, his fellow

officers became family, and they supported each other through good times and bad. They did their jobs no matter how dangerous the situation- and concerns about public perception rarely entered the equation. Develop a newfound respect for the dangers that police officers face on a daily basis, as well as changes that are leading to "The Erosion of the Thin Blue Line."

Riding motorcycles is fun,

but author Ken Condon maintains that there is a state of consciousness to be achieved beyond the simple pleasure of riding down the road. Riding in the Zone helps riders find that state of being. It's the experience of being physically and mentally present in the moment, where every sense is sharply attuned to the ride. Your mind becomes silent to the chatter of daily life, and everyday problems seem to dissolve. You feel a deeper appreciation for life. Your body responds

to this state of being with precise, fluid movements, you feel in balance, your muscles are relaxed, and it seems as though every input you make is an expression of mastery. This is "the Zone." Condon identifies all of the factors that affect entering the Zone and addresses each one individually, from the development of awareness and mental skills to mastering physical control of the motorcycle. At the end of each chapter are drills designed to transform the book's ideas into solid,

practical riding skills. Riding in the Zone takes riders to the next level in their skill set. *The Leafly Guide to Cannabis* CreateSpace Haynes has discovered all the problems that motorcycle owners could possibly encounter when rebuilding or repairing their bikes. DISCIPLE IV UNDER THE TREE OF LIFE is the final study in the four-phase DISCIPLE program and is prepared for those who have completed

BECOMING DISCIPLES THROUGH BIBLE STUDY.

The study concentrates on the Writings (Old Testament books not in the Torah or the Prophets), the Gospel of John, and Revelation. Emphasis on the Psalms as Israel's hymnbook and prayer book leads natural to an emphasis on worship in the study. Present through the entire study is the sense of living toward completion - toward the climax of the message and the promise, extravagantly pictured in Revelation. The image of

the tree and the color gold emphasize the prod and promise in the Scriptures for DISCIPLE IV: UNDER THE TREE OF LIFE. The word under in the title is meant to convey invitation, welcome, sheltering, security, and rest - home at last. Commitment and Time Involved 32 week study Three and one-half to four hours of independent study each week (40 minutes daily for leaders and 30 minutes daily for group members) in preparation for weekly group meetings.

Attendance at weekly 2.5 hour meetings. DVD Set Four of the five videos in this set contain video segments of approximately ten minutes each that serve as the starting point for discussion in weekly study sessions. The fifth video is the unique component that guides an interactive worship experience of the book of Revelation. Under the Tree of Life Scriptures lend themselves to videos with spoken word, art, dance, music, and drama. Set decorations differs from segment to segment

depending on the related Scripture and its time period. Set decoration for video segments related to the Writings generally has a Persian theme. Set decoration for the New Testament video segments emphasizes the simpler life of New Testament times.

This volume takes a critical look at the gender of tax policy around the world. Contributors based in eight different countries examine the profound effects that gender norms

and practices have had in shaping tax law and policy, and how taxation in turn impacts upon the possibilities for equality along gender, race, class, sexuality and other lines. Chapters explore how the gendered fiscal state might be theorised; how structural choices about rates and bases in tax policy design contribute to gender inequality; how tax policy affects family configurations and perceptions of what constitutes family; how fiscal systems impact on savings and wealth

accumulation by women and men; and the role of different policy-making processes and institutions in occluding and sometimes challenging these patterns. Most significantly, perhaps, the book explores these questions in an international frame, traversing countries and continents. The conclusion: fiscal policy has deep rooted, long standing gender implications that affect virtually every aspect of our social, political, and economic lives whether

we live in Canada, Australia or Kenya.

Watts My Line? Haynes Manuals

Offering a fresh assessment of the presence and function of paraenesis within Valentinianism, this book places Valentinian moral exhortation within the context of early Christian moral discourse. Like other early Christians, Valentinians were not only interested in ethics, but used moral exhortation to discursively shape social identity. Building on the increasing recognition of

ethical and communal concerns reflected in the Nag Hammadi sources, this book advances the discussion by elucidating the social rhetoric within, especially, the "Gospel of Truth" and the "Interpretation of Knowledge." The social function of paraenesis is to persuade an audience through social representation. The authors of these texts discursively position their readers, and themselves, within engaging moments of narrativity. It is hoped that this study will

encourage greater integration of research between those working on the Nag Hammadi material and those studying early Christian paraenetic discourse.

Whether it's a big-bore, high-end custom sportbike you're after, or a naked, bare knuckles streetfighting drag racer, this book has the goods

for getting you there. In three different scenarios, the nation's top builders give blow-by-blow instructions for completely rebuilding three popular streetbikes -- from performance modifications and exhaust systems to flawless finishes and detail work. Focusing on highly customized Hayabusa drag bikes, including a slammed and lowered Suzuki GSX1300R Hayabusa, John Dantzer of the Charlotte, North Carolina, shop Two Wheel Customs outlines the

suspension and engine modifications that the serious street and quarter-mile racer can make. He takes a salvaged, late-model four-cylinder street machine and transforms it into the kind of machine that both professional stunt riders and corner-carving enthusiasts favor. Next, author Mike Seate covers the details on constructing and installing popular modifications -- everything from engine crash guards and wheelie bars to motocross-style handlebars and bikini

fairings -- while stunt riders and streetfighter builders from the United States and Europe weigh in with tips and advice. Last but not least, the builders at Wisconsin's Patrick's Performance and South Carolina's Coastal Motorcycles provide a step-by-step account of the construction of two high-end custom sportbikes -- transforming a Yamaha YZF R-1 and a Suzuki GSX-R 1000 into the kind of machines that are eye-popping everywhere-on the streets or on the motorcycle show

circuit.
