*The Biology Coloring Book* Harper Collins  
Discover Jesus is a 12 week Bible study  
course for non-Christians and new

believers. This is the workbook for the course. The material starts out by focusing people on asking why God created us. Everyone is looking for a sense of meaning or purpose in life, but because we are created, we cannot define that purpose for ourselves. We can only discover our purpose from God Himself. And He only shows us His design through Jesus. In the course we look at the different ways that Jesus reveals the Father and who He created us to be. We discover that we were created through Jesus and for Him. We look at how Jesus died and rose again to free us from our selfishness and sin and to restore us into His image. We look at the awesome wonder of living in the image of God, but also at the cost of following Jesus. If we are to be His

disciples we must take up our cross and let Him redefine our lives so that we can live in unity and love with Jesus. Our goal is not just to help people to understand the gospel, but to entice people to enter into a romance with Jesus. We are preparing people to love Jesus with all their hearts. Those who make a decision to follow Jesus at the end of the course will be people who are willing to live fully for Jesus; people who are want to give their lives to loving God and others. The Bible study series spans 12 weeks, depending on the group dynamics. At the end of the course, if people want to continue meeting together to study the word of God then we have more studies and resources available. These can be found online at [www.discoverjesus.today](http://www.discoverjesus.today) How to Be Totally Unhappy in a Peaceful

Concepts of Biology is designed for the single-semester introduction to biology course for non-science majors, which for many students is their only college-level science course. As such, this course represents an important opportunity for students to develop the necessary knowledge, tools, and skills to make informed decisions as they continue with their lives. Rather than being mired down with facts and vocabulary, the typical non-science major student needs information presented in a way that is easy to read and understand. Even more importantly, the content should be meaningful. Students do much better when they understand why biology is relevant to their everyday lives. For

these reasons, Concepts of Biology is grounded on an evolutionary basis and includes exciting features that highlight careers in the biological sciences and everyday applications of the concepts at hand. We also strive to show the interconnectedness of topics within this extremely broad discipline. In order to meet the needs of today's instructors and students, we maintain the overall organization and coverage found in most syllabi for this course. A strength of Concepts of Biology is that instructors can customize the book, adapting it to the approach that works best in their classroom. Concepts of Biology also includes an innovative art program that incorporates critical thinking and clicker questions to help students understand--and apply--key concepts.

"Most self-help books are trite. They don't tell you anything you don't already know, and if you could follow their advice, you wouldn't need to read the book in the first place. This book, however, is radically different. It assumes that you are a normal happy person and want to experience the misery that so many others complain about. It gives some great advice on how to bring yourself to hell on earth, -- and bring all of your family, friends, and co-workers right along with you! Best of all, you can do all this while rolling on the floor with laughter. Give this book to anyone whose cheerful mood annoys you when you are down in the dumps. I

totally recommend this book for anyone even slightly Unhappy or those who love them !!" "I totally recommend this book for anyone even slightly Unhappy or those who love them !! It's fabulous. We had a great time, saw ourselves and others in the pages and since, unfortunately, this whole family is part of the 20% of happy people in a miserable world, the laughs were frequent and heartfelt." "I've read through bunches of self-help books. Of all of them, I think "Born to Win" and this book are the only two that will persist on my shelves." "The book is a delightful take hon the American way. Written with insight and humor, the author takes you into misery as a way of life and offers clever ways of maintaining your miserable status. I read it in one evening and thoroughly enjoyed

the wacky humor and uncanny knowledge of how we make ourselves sick with unnecessary worry and self doubt. Read it with a sense of humor and you can't help but love it the way I did." "This is a great book to have on your living room coffee table or bedside, so that you can pick it up often, open to any page, and laugh at how ludicrous we can be on a regular basis. I have taught social dance classes for over 20 years, and my goal is to provide an arena in which people have the freedom to laugh at themselves while learning about something new. Gil's book provides me and others with that freedom. I highly recommend it!" "This is a good book when one feels down and needs an uplift. It allows one to realize not to take life so seriously. Very enjoyable

reading."

L.A.'S BLACK ELITE, 80'S DECADENCE LUST, GREED AND GOLD To the outsider, Courtney Hamilton has the perfect life. She is the beautiful, intelligent but naive daughter of one of the most successful, black business men in Los Angeles in 1977. The family's fortune was handed down by her great-grandfather, who was one of California's first African American gold miners. Jealous of her daughter's privileged upbringing, and haunted by her own past, Courtney's mother, Danielle does everything she can to make her only daughter's life miserable. However, Courtney is graduating from high school and determined to gain her independence. She falls in love with Richard Thurston, a less-fortunate but

ambitious waiter from South L.A., goes to college and finds a passion for filmmaking, while her mother devises a plan to ruin Courtney's happiness. Unfortunately, Danielle's insatiable desire for power, money and sex, not only affects Courtney's life but threatens the family fortune as well. Courtney finally sees her mother for who she really is, toughens up and starts her dream job of producing a film about African Americans and their struggles in the California gold mines-but several unexpected events prevent the film's premiere and Courtney faces losing everything. Will Danielle ever become a caring, loving mother and reveal the secrets of her hidden past? And, more importantly, can Courtney forgive her mother for all that she has done and

move on before time runs out? "This coming of age story captivates readers with vivid characters that live the 1980's lifestyle to the fullest. From the discos and movie sets of Hollywood, to the designer boutiques of Paris-through corporate greed, insider trading, AIDS and the birth of technology, this story-within-a-story is a fusion of historical fact and fiction that takes the reader on an exciting journey while exploring one of the most remarkable decades of our generation." Brenton Butler, author of *They Said it was Murder* "Marcano has created a fascinating story by weaving together a history lesson and a modern-day romance." NATIONAL BESTSELLER • From the award-winning author of *We Should All Be Feminists* and *Half of a Yellow Sun*—the story of two Nigerians making their way in the U.S. and the UK, raising universal questions of race, belonging, the overseas experience for the African diaspora, and the search for identity and a home. Ifemelu and Obinze are young and in love when they depart military-ruled Nigeria for the West. Beautiful, self-assured Ifemelu heads for America, where despite her academic success, she is forced to grapple with what it means to be black for the first time.

Quiet, thoughtful Obinze had hoped to join her, but with post-9/11 America closed to him, he instead plunges into a dangerous, undocumented life in London. Fifteen years later, they reunite in a newly democratic Nigeria, and reignite their passion—for each other and for their homeland.

Finally! Board member orientation truly simplified. Serving on a nonprofit board can be an incredibly rewarding experience for the properly prepared board member. This book is for the generous and busy people who agree to give of their time and talents by serving on nonprofit boards. Nonprofit boards

often fail to do a good job of board member orientation for a variety of reasons. It takes a significant amount of time and effort to plan and conduct quality board member orientation programs, and every time a new board member arrives, it's time to do it again! Because of the challenges associated with providing quality board member orientation, many nonprofit organizations do not do it at all, leaving their board members to wing it. This book provides help and support to the truly great men and women serving on nonprofit boards whose service makes a positive difference in the lives of countless people every day. This book is a concise and appropriately comprehensive guide to nonprofit board service designed especially for new

board members. It is a quick read, (about one hour), yet it addresses with accuracy the most significant elements of board service, such as mission, responsibility, duty, risk, liability, and board meeting dynamics. Hooey Alerts! Watch for Hooey Alerts! where the author identifies and dispels common myths and legends about nonprofit board service. There are many sources of false or misleading information about the nonprofit board service environment. A perfect example is the often vaguely-worded and intimidating assertion or implication that the Sarbanes-Oxley Act passed by Congress in 2002 applies to nonprofit organizations in a manner similar to how it applies to publicly-traded companies. (It does not.) Reviews "This book is the perfect guide for every

nonprofit board member! Concise, highly informative, and loaded with nuggets of wisdom, it's a must read that will take board members to the next level of successful board governance." -- J. Todd Chasteen, General Counsel, Samaritan's Purse "Mike Batts has put his quarter century of advising and serving on nonprofit boards to good use in this accurate and easy-to-read book. In addition to describing major principles of nonprofit law and governance, the book provides helpful questions to guide board members in understanding the practical applications of the concepts discussed. While geared primarily toward helping new board members get up to speed quickly, it should also help veteran board members discharge their stewardship roles wisely and efficiently."

-- Chuck Hartman, Associate Professor of Business Law and Accounting, Cedarville University "This book, Board Member Orientation, is exactly what a busy volunteer board member needs. The board member's duties are presented in a clear and concise manner from the perspective of someone who has been around many boards. With a focus on those issues that are most common and/or most important, it is perfect for board member orientation and for quick reference reminders for the experienced board member." -- Doug Starcher, Partner, Broad & Cassel "This book provides clear, no-nonsense guidance on the basic issues for new nonprofit board members. Using this book for board member orientation will ensure your organization has communicated

fundamental governance issues and will assist the board in determining risk management strategies." -- Dan Busby, President, ECFA

\*\*\*\*\* The Simple Board Member Orientation Process Using This Book: 1. Your board members read Chapters 1-9 of the book, which will provide them with insights regarding the key elements of nonprofit board service. 2. You provide the board members with copies of the documents described in Chapter 10 related to your organization. 3. You meet with your board members to discuss the unique attributes of your organization following the discussion questions provided in Chapter 10. Done!
