The Absent Father Effect on Daughters investigates the impact of absent – physically or emotionally – and inadequate fathers on the lives and psyches of their daughters through the perspective of Jungian analytical psychology. This book tells the stories of daughters who describe the insecurity of self, the splintering and disintegration of the personality, and the silencing of voice. Issues of fathers and daughters reach to the intra-psychic depths and archetypal roots, to issues of self and culture, both personal and collective. Susan E. Schwartz illustrates the

maladies and disappointments of daughters who lack a father figure and incorporates clinical examples describing how daughters can break out of idealizations, betrayals, abandonments and losses to move towards repair and renewal. The book takes an interdisciplinary approach, expanding and elucidating Jungian concepts through dreams, personal stories, fairy tales and the poetry of Sylvia Plath, along with psychoanalytic theory, including Andre Green's 'dead father effect' and Julia Kristeva's theories on women and the body as abject. Examining daughters both personally and collectively affected by the lack of a father, The Absent Father Effect on Daughters is highly relevant for those wanting to understand the complex

dynamics of daughters and fathers to become their authentic selves. It will be essential reading for anyone seeking understanding, analytical and depth psychologists, other therapy professionals, academics and students with Jungian and post-Jungian interests.

The Descendants of Mathew Martine

Forde Vol II Generations 9-12 -

Unabridged With Sources Scott William Barker

A sweeping retrospective exploring the oeuvre of an incandescent artist, revealing the ways that Mitchell expanded painting beyond Abstract Expressionism as well as the transatlantic contexts that shaped her. Joan Mitchell (1925–1992) was fearless in her experimentation, creating works of unparalleled beauty, strength, and emotional intensity. This gorgeous book unfolds the story of an artistic master of the highest order, revealing the ways she expanded abstract painting and illuminating the transatlantic contexts that shaped her. Lavish illustrations cover the full arc of her artistic practice,

from her exceptional New York paintings of the early 1950s to the majestic multipanel compositions she made in France later in her career. Signature works are represented here along with rarely seen paintings, works on paper, artist's sketchbooks, and photographs of Mitchell's life, social circle, and surroundings. Featuring scholarly texts, in-depth essays, and artistic and literary responses, this book is organized in ten chronological chapters. Each chapter centers on a closely related suite of paintings, illuminating a shifting inner landscape colored by experience, sensation, memory, and a deep sense of place. Presenting groundbreaking research and a variety of perspectives on her art, life, and connections to poetry and music, this unprecedented

volume is an essential reference for Mitchell's admirers and those just discovering her work.

"Our hunger for the forbidden fruit grows as we get older and our need for it

increases. By midlife, we often sense that something important is missing. Then the "unacceptable," "sinful" parts of ourselves that have been rejected begin to clamor with ever greater insistence to participate in our lives."- Larry Staples, Ph.D., Jungian Analyst and author of *The Promethean Way*

Promethean guilt is the guilt we incur for the sins that we need to commit if we are to achieve, both for our selves and for our society, some of the social, political, economic, scientific, psychological, and other changes and developments that we most deeply need to sustain and nourish us. Myth tells us that Prometheus stole fire from the gods and made it available for human use. He suffered for this sin, but human society would have suffered if he had not

committed it. There indeed are sins that are destructive to society, but the paradox is that there are also sins that inure ultimately to society's benefit. Those sins that benefit us could not be committed without a creative, Promethean spirit that is supported, when necessary, by an obstinate and irreverent insolence toward authority (political, theological, pedagogical, and parental) and that is informed by a love for freedom. Life inevitably confronts us with the Promethean dilemma: Do we live our lives without fire and the heat and light it provides or do we sin, and subsequently incur guilt, in order to obtain for ourselves and for society those important changes and developments that we need.
