Skills. Home health nurses must have excellent clinical skills, which they develop through the lab component of a nursing education program. The ability to set up and monitor IVs,

administer shots, give tube feedings and change bandages are central skills. What Skills Are Needed to Be a Home Health Care Nurse ... Home health nursing is a specialty available to registered nurses (RNs) as well as licensed vocational nurses (LVNs), and nurse assistants. Home health nursing staff are responsible for caring for patients in their homes, performing various tasks if patients and/or their families are unable to care for themselves. How to Become a Home Health Nurse - Salary ... A Home Health Nurse provides one-on-one care for clients in the home setting, including dressing, bathing, IV therapy, medication management and wound care. Patients

requiring home health nursing services can include patients that are terminally or chronically ill, disabled or elderly, along with individuals recovering from an accident or injury. Home Health Nurse Job Description | Indeed A certain amount of overlap between general nursing skills and home health nursing skills is to be expected, as both forms of health care delivery share a focus on providing excellent patient care. That said, taking the delivery of care out of the controlled setting provided by a hospital, nursing home, or doctor's office and shifting it into a patient's home presents unique challenges.
