Originally published in 1986. In this study of initiation in the Nikayas (Discourses of the Buddha), the author presents evidence which makes it clear that salvation in early Buddhism depended upon the intervention of the Buddha's grace. Contrary to the view of Buddhism as a philosophy of self-

endeavour, the picture that emerges from examination of the canonical texts is one of Buddhism as a revealed religion in every sense of the term.

This is the first attempt at a description of the grammar and lexicon of Buddhist Hybrid Sanskrit. Most North Indian Buddhist texts are composed in it. It is based primarily on an old Middle Indic vernacular not otherwise identifiable. But there seems reason to believe that it contains features that were borrowed from other Middle Indic dialects. In other words, even its Middle Indic aspects are dialectically somewhat mixed. Most strikingly, however, BHS was also extensively influenced by Sanskrit from the very beginning of the tradition as it has been transmitted to us, and increasingly as time went on. Many (especially later) products of this tradition have often, though misleadingly, been called simply 'Sanskrit', without qualification. In principle, the author has excluded from the grammar and dictionary

all forms which are standard Sanskrit, and all words which are used in standard Sanskrit with the same meanings.

An Analysis of the Pali Canon is a comprehensive overview of the contents of the works that make up the Tipitaka, the Canon of the Theravada school of Buddhism. It also contains an index of the suttas and sections of the Tipitaka, as well as an extensive bibliography of the translations of canonical works and secondary literature. The second part of this book, A Reference Table of Pali Literature, is an extensive list of all the works composed in the Indic language known as Pali. It lists all the works of the Tipitaka, the commentaries and subcommentaries, historical chronicles, works on medicine, cosmology, grammar, law, astrology, Bible translations, etc. It also gives data on the authors, time of composition, country of origin and includes references to secondary literature that provide more information on the works listed. This book is an essential resource for students and researchers of the Tipitaka and other Pali literature.

Epitome of the Pali Canon Abhinav Publications

Does Buddhism require faith? Can an atheist or agnostic follow the Buddha's teachings without believing in reincarnation or organized religion? This is one man's confession. In his classic *Buddhism Without Beliefs*, Stephen Batchelor offered a profound, secular approach to the teachings of the Buddha that struck an emotional chord with Western readers. Now, with the same

brilliance and boldness of thought, he paints a groundbreaking portrait of the historical Buddha—told from the author's unique perspective as a former Buddhist monk and modern seeker. Drawing from the original Pali Canon, the seminal collection of Buddhist discourses compiled after the Buddha's death by his followers, Batchelor shows us the Buddha as a flesh-and-blood man who looked at life in a radically new way. Batchelor also reveals the everyday challenges and doubts of his own devotional journey—from meeting the Dalai Lama in India, to training as a Zen monk in Korea, to finding his path as a lay teacher of Buddhism living in France. Both controversial and deeply personal,

Stephen Batchelor's refreshingly doctrine-free, life-informed account is essential reading for anyone interested in Buddhism.
