The Apostle We Love to Hate Houghton

Mifflin Harcourt

Inspiring stories and beautifully typeset quotations about generosity. **WARNING:** This book might change your life. The desire to act generously arrives like an uninvited guest, unexpectedly, like a lightning bolt, in a mere moment. A gesture, a news story, a quotation in a book, a passing remark can change everything. For many, that moment is enough for generosity to move into their hearts and minds and become central to their lives. This book will help readers open their hearts to the power of their own innate generosity, their desire to make a difference in the world, to help make someone's day a little brighter or their world a bit more secure. It will kindle a spark in readers' hearts that moves them into the sunshine of a more

generous life. If one life is more generous, we all prosper. That is one of generosity's most wonderful qualities: it is utterly contagious. Inspiring Generosity is an invitation to savor a sampling of the very best inspirations on the subject of generosity. It includes fourteen contemporary stories of "generosity heroes" whose lives have been transformed by the power of generosity. Sprinkled throughout these stories are writings, poems, and quotes from Shakespeare, Hafiz, Emily Dickinson, George Eliot, Wendell Berry, Sharon Olds, Naomi Shibab Nye, Donald Justice, Winston Churchill, Mother Teresa, Maya Angelou, Gandhi, Dr. Martin Luther King, Jr., John Steinbeck, James Joyce, Leo Tolstoy, Walt Whitman, Henry David Thoreau, Goethe, Seneca,

Albert Schweitzer, Anne Frank, and many others.

Apostle of the Crucified Lord A&C
Black

This book revisits and revises some of the most basic concepts of time in the Judeo-Christian tradition, drawing on St. Paul's writings to rethink a new kind of radical faith in truth as an event, as the advent of the incalculable, a modality that remakes the pairing religious/secular.

St. Paul and the Roman Law and Other Studies on the Origin of the Form of

Doctrine Harper Collins

Using Paul's letter to the Romans as the foundation for his monumental study of Paul's theology, James D. G. Dunn describes Paul's teaching on God, sin, humankind, Christology, salvation, the church, and the nature of the Christian life.

This comprehensive, widely used text by Michael Gorman presents a theologically focused, historically grounded interpretation of the apostle Paul and raises significant questions for engaging Paul today. After providing substantial background information on Paul's world, career, letters, gospel, spirituality, and

theology, Gorman covers in full detail each of the thirteen Pauline epistles. Enhancing the text are questions for reflection and discussion at the end of each chapter as well as numerous photos, maps, and tables throughout. The new introduction in this second edition helpfully situates the book within current approaches to Paul. Gorman also brings the conversation up-to-date with major recent developments in Pauline studies and devotes greater attention to themes of participation, transformation, resurrection, justice, and peace. -- Publisher's description.

Cracking the Foundation of the New Perspective on Paul Our Sunday Visitor (IN)

The Origin of Paul's Religion is intended to deal, from one particular point of

view, with the problem of the origin of Christianity. It is an important historical problem not only because of the large place which Christianity has occupied in the medieval and modern world, but also because of certain unique features which even the most unsympathetic and superficial examination must detect in the beginnings of the Christian movement. The problem of the origin of Christianity is also an important practical problem. Rightly or wrongly, Christian experience has ordinarily been connected with one particular view of the origin of the Christian movement; where that view has been abandoned, the experience has ceased.

What Saint Paul Really Said Wm. B.

Eerdmans Publishing

The apostle Paul has been justifiably

described as the first and greatest Christian theologian. His letters were among the earliest documents to be included in the New Testament and, as such, they shaped Christian thinking from the beginning. As a missionary, theologian and pastor Paul's own wrestling with theological and ethical questions of his day is paradigmatic for Christian theology, not least for Christianity's own identity and continuing relationship with Judaism. The Cambridge Companion to St Paul provides an important assessment of this apostle and a fresh appreciation of his continuing significance today. With eighteen chapters written by a team of leading international specialists on Paul, the Companion provides a sympathetic and critical overview of the apostle,

covering his life and work, his letters and his theology. The volume will provide an invaluable starting point and helpful cross check for subsequent studies.

In this highly engaging book, Peter Walker uses his expertise in Biblical studies and his extensive experience of leading tours around the Mediterranean to bring the world of Saint Paul vividly to life. Following Luke's account in the Book of Acts and using evidence from Paul's own letters, he reconstructs the apostle's wide-ranging travels and describes the many places Paul visited as we encounter them today. In doing so he helps us to appreciate the issues that Paul confronted and to understand the motivation that drove him on. Enriched

with boxed features outlining key timelines and topics, and supplemented with maps and street plans, this book is an ideal introduction to Paul and his travels for scholars at all levels of study.

Reclaiming the Radical Visionary Behind the Church's Conservative Icon Emmaus Road Publishing

St. Paul is one of the most important figures in Christian history. As Saul of Tarsus he vigorously persecuted Christianity, even collaborating in the death of Christianity's first martyr, Stephen. His encounter with the

resurrected Jesus on the road to Damascus changed Paul's life, the Christian Church, and world history. More than anyone else in the early Church, Paul saw the universal nature of the Christian message. He became the "Apostle to the Gentiles" and the "Teacher of the Nations". As the human author of half of the New Testament, Paul is a figure who cannot be overlooked by anyone who wants to understand Jesus Christ and Christianity. In this book, Pope Benedict XVI, a profound spiritual leader in his own right and a first-rate theologian and Bible commentator, explores the legacy of Paul. Pope Benedict follows the course of the Apostle's life, including his missionary journeys and his relationship with the other apostles of Jesus such as

St. Peter and St. James, and Paul's martyrdom in Rome. Benedict also examines such questions as: Did Paul know Jesus during his earthly life and how much of Jesus' teaching and ministry did he know of? Did Paul distort the teachings of Jesus? What role did Jesus' death and resurrection play in Paul's teaching? What are we to make of Paul's teaching about the end of the world? What does Paul's teaching say about the differences between Catholic and Protestant Christians over salvation and the roles of faith and works in the Christian life? How have modern Catholic and Protestant scholars come together in their understanding of Paul? What does Paul have to teach us today about living a spiritual life? These and other important issues are addressed in this

masterful, inspirational, and highly-readable presentation of St. Paul and his writings by one of today's great spiritual teachers, Pope Benedict XVI. "The Apostle Paul, an outstanding and almost inimitable yet stimulating figure, stands before us as an example of total dedication to the Lord and to his Church, as well as of great openness to humanity and its cultures." —Pope Benedict XVI

A Book of Information About-- the Saint Paul Foundation, Saint Paul, Minnesota Gideon House Books

The much-acclaimed present-day philosophical turn to the letters of Saint Paul points to a profound consonance between ancient and modern thought. Such is the bold claim of this study in which scholars from contemporary continental philosophy, new

testamentary studies and ancient philosophy discuss with each other the meaning Paul's terms *pistis*, faith. In this volume, this theme discusses in detail the threefold relation between Paul and (1) continental thought, (2) the Graeco-Roman world, and (3) political theology. It is shown that *pistis* does not only concern a mode of knowing, but rather concerns the human ethos or mode of existence as a whole. Moreover, it is shown that the present-day political theological interest in Paul can be seen as an attempt to recuperate Paul's *pistis* in this comprehensive sense. Finally, an important discussion concerning the specific ontological implications and background of this reinterpretation of *pistis* is examined by comparing the ancient ontological commitments to

those of the present-day philosophers. Thus, the volume offers an insight in a crucial consonance of ancient and modern thought concerning the question of *pistis* in Paul while not forgetting to stipulate important differences.

Missionary Methods: St. Paul's or Ours?
Scepter Publishers

At this critical point in the history of World Missions, it is imperative for us to take a step back from “business as usual” in our work around the globe and reevaluate the strategies and methods we are implementing. What is working? What isn't? If we're honest, there may be more not working than we would care to admit. In this book, written in the early 1900s, Roland Allen invites us to look at the missionary work of the Apostle Paul with fresh eyes and an

igniting perspective that is strikingly relevant to the greatest challenges we are facing today in modern missions. He offers a well of insight from the methodology of Paul that will focus and unite us as we draw nearer than ever before to our goal of fulfilling the Great Commission and reaching the world with the Gospel of Jesus Christ.

Beginning in 1862 as a small carrier connecting St. Paul and Minneapolis with outlying towns, the Saint Paul & Pacific Railroad became the foundation of the vast rail system that would open the entire Northwest. As a pioneering line in virgin territory, it played a vital role in the early development of Minnesota's economy. When railroad tycoon James J. Hill took over the troubled company in

1879, its tracks were extended into westward lines that eventually, as the Great Northern Railway, reached the Pacific Ocean. Written by leading railroad historian Augustus J. Veenendaal Jr. this finely researched book examines the growth of the fledgling Saint Paul & Pacific as it struggled to lay track, meet the schedule, and make the payroll. The railway's leaders and workers took risks of injury and ruin during these years on the frontier, when everything except hardship was in short supply.

Veenendaal devotes an entire chapter to the accidents and disasters that befell the new enterprise, including deadly collisions and derailments. He also chronicles triumphs, such as the use of the Miller coupler and the refurbishment of the famed Wm. Crooks, a 4-4-0

woodburning engine that was the first locomotive in Minnesota. Veenendaal reveals the strategic importance of foreign investment in American railroads--in particular, Dutch investment. The Saint Paul & Pacific was one of the first railroads to attract the attention of Dutch bankers, who would eventually become the second largest group of foreign investors in American railroads. After James J. Hill bought out the Dutch interest in the railroad, he reorganized it as the St. Paul, Minneapolis & Manitoba Railroad. Today, after the megamergers of recent years, the Burlington Northern Santa Fe system owns the ghost of the old Saint Paul & Pacific Railroad Company.

In the Steps of Saint Paul Stanford University Press

A rural expatriate's struggle to reconcile family, home, love, and faith with the silence of the prairie land and its people. Melanie Hoffert longs for her North Dakota childhood home, with its grain trucks and empty main streets. A land where she imagines standing at the bottom of the ancient lake that preceded the prairie: crop rows become the patterned sand ripples of the lake floor; trees are the large alien plants reaching for the light; and the sky is the water's vast surface, reflecting the sun. Like most rural kids, she followed the out-migration pattern to a better life. The prairie is a hard place to stay—particularly if you are gay, and your home state is the last to know. For Hoffert, returning home has not been easy. When the farmers ask if she's

found a “fella,” rather than explain that—actually—she dates women, she stops breathing and changes the subject. Meanwhile, as time passes, her hometown continues to lose more buildings to decay, growing to resemble the mouth of an old woman missing teeth. This loss prompts Hoffert to take a break from the city and spend a harvest season at her family’s farm. While home, working alongside her dad in the shop and listening to her mom warn, “Honey, you do not want to be a farmer,” Hoffert meets the people of the prairie. Her stories about returning home and exploring abandoned towns are woven into a coming-of-age tale about falling in love, making peace with faith, and belonging to a place where neighbors are as close as blood but are often

unable to share their deepest truths. In this evocative memoir, Hoffert offers a deeply personal and poignant meditation on land and community, taking readers on a journey of self-acceptance and reconciliation.

Saint Paul and the Philosophy of Undying Life Canongate Books

Nietzsche and Freud saw Christianity as metaphysical escapism, with Nietzsche calling the religion a “Platonism for the masses” and faulting Paul the apostle for negating more immanent, material modes of thought and political solidarity. Integrating this debate with the philosophies of difference espoused by Gilles Deleuze, Michel Foucault, Jacques Derrida, Jacques Lacan, and Pier Paolo Pasolini, Ward Blanton argues that genealogical interventions into the

political economies of Western cultural memory do not go far enough in relation to the imagined founder of Christianity. Blanton challenges the idea of Paulinism as a pop Platonic worldview or form of social control. He unearths in Pauline legacies otherwise repressed resources for new materialist spiritualities and new forms of radical political solidarity, liberating “religion” from inherited interpretive assumptions so philosophical thought can manifest in risky, radical freedom.

The Meditation on the "foundation" in the Light of Saint Paul Ignatius Press Presented here for the first time in English is a remarkable screenplay about the apostle Paul by Pier Paolo Pasolini, legendary filmmaker, novelist, poet, and radical intellectual activist. Written

between the appearance of his renowned film *Teorema* and the shocking, controversial *Salò*, or the 120 Days of Sodom, *St Paul* was deemed too risky for investors. At once a political intervention and cinematic breakthrough, the script forces a revolutionary transformation on the contemporary legacy of Paul. In Pasolini’s kaleidoscope, we encounter fascistic movements, resistance fighters, and faltering revolutions, each of which reflects on aspects of the Pauline teachings. From Jerusalem to Wall Street and Greenwich Village, from the rise of SS troops to the death of Martin Luther King, Jr, here—as Alain Badiou writes in the foreword—‘Paul’s text crosses all these circumstances intact, as if it had foreseen them all’. This is a key addition

to the growing debate around St Paul and to the proliferation of literature centred on the current turn to religion in philosophy and critical theory, which embraces contemporary figures such as Alain Badiou, Slavoj Žižek and Giorgio Agamben.

The Splendor of Truth Christian Focus
 “Besides Jesus, no one has kept me from despair, or taken me deeper into the mysteries of the gospel, than the apostle Paul.” —John Piper
 No one has had a greater impact on the world for eternal good than the apostle Paul—except Jesus himself. For John Piper, this impact is very personal. He does not just admire and trust Paul. He loves him. Piper gives us thirty glimpses into why his heart and mind respond this way. Can a Christian-killer really endure 195 lashes from a

heart of love? Can a mystic who thinks he was caught up into heaven be a model of lucid rationality? Can an ethnocentric Jew write the most beautiful call to reconciliation? Can a person who lives with the unceasing anguish of empathy be always rejoicing? Can a man’s description of the horrors of human sin be exceeded by his delight in human splendor? Can a man with a backbone of steel be as tender as a nursing mother? If we know this man—if we see what Piper sees—we too will love him. Paul’s testimony is a matter of life and death. Piper invites you into his relationship with Paul in the hope that you will know life, forever.
