At a time when liberalism is in disarray, this vastly illuminating book locates the origins of its crisis. Those origins, says Alan Brinkley, are paradoxically situated during the second term of Franklin Delano Roosevelt, whose New Deal had made liberalism a fixture of American politics and society. *The End of Reform* shows how the liberalism of the early New Deal—which set out

to repair and, if necessary, restructure America's economy—gave way to its contemporary counterpart, which is less hostile to corporate capitalism and more solicitous of individual rights. Clearly and dramatically, Brinkley identifies the personalities and events responsible for this transformation while pointing to the broader trends in American society that made the politics of reform increasingly popular. It is both a major reinterpretation of the New Deal and a crucial map of the road to today's political landscape.

The Unfinished Nation

Columbia University Press
"The title 'The Unfinished Nation' is meant to suggest several things. It is a reminder of America's exceptional diversity of the degree to which, despite all the many efforts to build a single, uniform definition of the meaning of American nationhood, that meaning remains contested. It is a reference to the centrality of change in American history to the ways in which the nation has continually transformed itself and continues to do so in our own time. It is also a description of the

writing of American history itself of the ways in which historians are engaged in a continuing, ever unfinished process of asking new questions"--

McGraw-Hill Humanities, Social Sciences & World Languages

Instant New York Times Bestseller As the fiftieth anniversary of the first lunar landing approaches, the award winning historian and perennial New York Times bestselling author takes a

fresh look at the space program, President John F. Kennedy's inspiring challenge, and America's race to the moon. "We choose to go to the Moon in this decade and do the other things, not because they are easy, but because they are hard; because that goal will serve to organize and measure the best of our energies and skills, because that challenge is one that we are willing to accept, one we are unwilling to postpone, and one we intend to win."—President John F. Kennedy On May 25, 1961, JFK made an astonishing announcement: his goal of putting a man on the moon by the end of the decade. In this engrossing, fast-paced epic, Douglas Brinkley returns to the 1960s to recreate one of the most exciting and ambitious achievements in the history of humankind. American Moonshot brings together the extraordinary political, cultural, and scientific factors that fueled the birth and development of NASA and the Mercury, Gemini and Apollo projects, which shot the United States to victory in the space race against the Soviet Union at the height

of the Cold War. Drawing on new primary source material and major interviews with many of the surviving figures who were key to America's success, Brinkley brings this fascinating history to life as never before. *American Moonshot* is a portrait of the brilliant men and women who made this giant leap possible, the technology that enabled us to propel men beyond earth's orbit to the moon and return them safely, and the geopolitical tensions that spurred Kennedy to commit himself fully to this audacious dream. Brinkley's ensemble cast of New Frontier characters include rocketeer Wernher von Braun, astronaut John Glenn and space booster Lyndon Johnson. A vivid and enthralling chronicle of one of the most thrilling, hopeful, and turbulent eras in the nation's history, *American Moonshot* is an homage to scientific ingenuity, human curiosity, and the boundless American spirit.

The study of two great demagogues in American history--Huey P. Long, a first-term United States Senator from the red-clay,

piney-woods country of northern Louisiana; and Charles E. Coughlin, a Catholic priest from an industrial suburb near Detroit. Award-winning historian Alan Brinkley describes their modest origins and their parallel rise together in the early years of the Great Depression to become the two most successful leaders of national political dissidence of their era. *Winner of the American Book Award for History*

The American Journey
McGraw-Hill Humanities, Social Sciences & World Languages

The young president who brought vigor and glamour to the White House while he confronted cold war crises abroad and calls for social change at home John Fitzgerald Kennedy was a new kind of president. He redefined how Americans came to see the nation's chief executive. He was forty-three when he was inaugurated in 1961—the youngest man ever elected to the office—and he personified what he called the "New Frontier" as the United States entered the 1960s. But as Alan Brinkley shows in this incisive and lively assessment, the reality of Kennedy's achievements

was much more complex than the legend. His brief presidency encountered significant failures—among them the Bay of Pigs fiasco, which cast its shadow on nearly every national-security decision that followed. But Kennedy also had successes, among them the Cuban Missile Crisis and his belated but powerful stand against segregation. Kennedy seemed to live on a knife's edge, moving from one crisis to another—Cuba, Laos, Berlin, Vietnam, Mississippi, Georgia, and Alabama. His controversial public life mirrored his hidden private life. He took risks that would seem reckless and even foolhardy when they emerged from secrecy years later. Kennedy's life, and his violent and sudden death, reshaped our view of the presidency. Brinkley gives us a full picture of the man, his times, and his enduring legacy.
