The Great Commission provides more than a weekly activity of soulwinning or visitation; it reflects the very heartbeat of God. It is more than a directive for local church outreach programs; it is God's plan for the establishment of local churches around the world. God's Passion is a church planting manual that will both challenge and equip you to align your heart with God's. This book includes teaching on the biblical model of church planting as well as several chapters of intensely

practical resources for both the sending church and the church planter. These chapters will encourage you to make Christ's last command your highest priority, and to invest your life--as a supporting church member, a sending pastor, or a church planter--into the passion of God.

Small group resources tend to overlook the spiritual side of small group leadership. And yet most would agree that spiritual preparation is the most important aspect of leading a small group. Only Gods supernatural power can draw people to the truth and liberate them to be all that God

wants them to be. The key distinction of this book is the spiritual perspective it gives to small group ministry. So much of the literature about small groups that is already published relates to small group technique and only touches briefly on the Spirits power. This book is a practical reference guide to help small group leadership begin to move in the supernatural realm. The books first priority is to help small group leaders and members trust the Holy Spirit to lead them, empower them and work in their group. Small group facilitators often sense a lack of guidance, power and spiritual authority. Jesus knew His disciples would be powerless without a touch

from the Holy Spirit, and so He told them to wait in Jerusalem, saying, You will receive power when the Holy Spirit comes on you; and you will be my witnesses in Jerusalem, and in all Judea and Samaria, and to the ends of the earth (Acts 1:8).

Small group leaders need a power boost to make small group ministry relevant and exciting. The second priority of this book is to help the facilitator identify and mobilize each small group member to use his or her own spiritual gifts.

If the church is to thrive in the twenty-first century, it will have to take on a new form as it ministers to the 120 million unchurched people in the United States. *Planting Growing Churches for the 21st Century* is still virtually the only available text on church planting in North America and beyond. In this third edition, readers will find material on the importance of healthy, biblical change in our churches, updated appendixes, insight on our postmodern ministry context, and strategies for reaching new population demographics such as Generations X and Y.

Pastors, ministry leaders, and church planters will find the information and advice found in this book invaluable as they carry out their ministries.

This practical guide will help you change the way you view church and church planting. This manual is packed with information, biblical content, case studies and insights. But most of all it contains a challenge that anyone can be involved in advancing the Kingdom of God by starting a simple church in their home. The text flows as you'd expect from a normal book. But supporting it are a host of extra quotes from others involved in church life.

According to the author perhaps our greatest responsibility is to evangelize our own generation. Yet established churches are not able to do that. In fact, rising generations of Americans live in ignorance of Jesus Christ and have no moral absolutes. Aggressive church planting, the author believes, is the answer to the problem, because new churches

focus on the needs of each new generation and present biblical truth in the cultural context that best reaches those people. The objectives of this book are to lay down the challenge to consider becoming a church planter while at the same time screen out wishful thinking and focus on the practical challenges of church planting. This authoritative and edgy message is the next thing in evangelism.

Every aspect of planting a church is personal. Like giving birth to a child, church planters give all they have to start new churches. So when people leave the church or criticize it, it's hard not to take it personally. And while many pastors feel called by God to plant

new churches, few are prepared for the inevitable toll it can take on their lives...and their families and friendships. Brian and Amy Bloye know firsthand that planting churches isn't easy. While planting a church, they learned that God does not promise to make up for mis-guided priorities. In this book they talk about having a healthy marriage, raising children, finding the right balance of family and ministry, dealing with spiritual warfare, staffing and leadership challenges, and dealing with criticism—issues every church leader must deal with. An authentic manual for day -to -day life in ministry, couples will learn to identify and relate to experiences in the book, and will come away feeling empowered and inspired to thrive - not only in planting a church, but also for the long haul of life and ministry. They will also be challenged and encouraged to avoid some of the pitfalls of planting a church and be equipped to build, not just strong, prevailing ministries, but healthy marriages and families. It will also include intimate interviews in each chapter with several church

planting couples who will open up their personal lives to give the reader some practical, real, authentic advice on dealing with some of the challenging issues that church planters face everyday.

The four gospels - Matthew, Mark, Luke, and John - present Jesus Christ, God Himself, breaking into human history.... The story of Jesus and the early church should not end. Jesus Christ laid the foundation for the church through His life, death, and resurrection as recorded in the four gospels.... The followers of Jesus Christ then continued His work by spreading the gospel through preaching and teaching and the planting of new churches.... To continue the work begun by Christ and His disciples, new church planting should be at the top of our list of priorities, as it was in theirs. From the Prologue *Planting Churches that Reproduce* Crossway Nearly eighty percent of all new churches fail, leaving countless discouraged church planters wondering why. Ben Arment answers their

question with Church in the Making by identifying and expanding on three God ordained conditions that make for a successful church plant even before the doors open: Good Ground - just as Jesus based his ministry on the openness of people's hearts, we must gauge the spiritual receptivity of our community before planting a church. If the people are not yet open to the Gospel, the first step is to cultivate their hearts. Rolling Rocks - momentum is also key to the success of new churches. If God truly builds his church, then our job is not to start from scratch, but rather to identify where he is already bringing people, funds, and other resources together for his purposes. Deep Roots - wherever there's a church in the making, God provides a group of leaders who can align people and resources in order to achieve and sustain the church's mission. Lone planters have a much less hope of succeeding, let alone surviving.

Church Planting and Discipleship A Biblical Church Planting Manual

The Book of Acts is often studied and presented in sermons and in Sunday School lessons as interesting church history, but little more. Some spiritual principles may be drawn out of its stories, but the idea that the Holy Spirit gave Acts to the church to be our handbook or training manual for how to fulfill the Great Commission is often overlooked. "That was then" most will say, "but this is a different time and place. Surely, the Lord does not intend for the church to experience the same

results today!" But the evidence from around the world is clear: the church planting paradigm of Acts produces rapid, exponential growth of the kingdom whenever or wherever it is properly applied. "From every corner of the globe the reports are coming in. Only a few at first, but now more and more frequently, reinforcing one another with their startling accounts of hundreds, thousands, and even tens of thousands coming to faith in Christ, forming into churches and spreading their new found faith" (David Garrison, *Church Planting Movements*, 1999). What David Garrison was describing could just as easily have been an introduction to the Book of Acts; for that was exactly what Luke was describing as he recorded the rapid expansion of the church that started in Jerusalem on that first Pentecost after Jesus' Resurrection and Ascension. This Study Guide is intended for individuals or groups who want to study Acts from a fresh perspective and at the same time learn how they can be personally and actively involved in this worldwide movement of church planting. Moving

chapter by chapter through the Book of Acts, the Study Guide incorporates the principles of church planting movements today and clearly demonstrates (1) these principles are straight out of the Book of Acts, and (2) Acts was in fact, given to the church by the Holy Spirit to show us "How to..." fulfill the Great Commission (Matt. 28:19-20) that is and has been our mandate from the beginning.

World Impact's vision is clear and bold: to recruit, empower, and release urban leaders who will plant churches and launch indigenous church planting movements. We have established The Evangel School of Urban Church Planting to equip church planters to plant healthy churches among the city's poor. Through assessment, coaching, and consultation, we facilitate church plant teams to use biblical wisdom as they engage unreached urban neighborhoods, with the goal of planting churches where Christ will be

honored, the Word of God preached, and justice and compassion demonstrated for all to see. This guidebook is the official text for the Dean Training course to help churches and ministries sponsor their own church plant training. Designed as a manual for deans who help steer urban church planters, this workbook provides a blueprint for the whys and wherefores of the entire process, from formation of the team to transitioning leadership of the newly planted church. On completion of their course and Dean Commissioning, Deans are then certified to host their own Evangel School sessions within their ministry context. This text is keyed to other valuable resources specifically designed for the Evangel Church Plant Schools in order to help urban church planters plant churches in the city (i.e., *Ripe for Harvest: A Guidebook for Planting Healthy Churches in the City and Planting Churches among the City's Poor*, Vols. 1 and 2). In addition, online videos, PowerPoint presentations, and other supplemental resources developed for Evangel Church Plant Schools are available to help a church,

organization, or ministry train teams to plant churches among the poor. Join us as we strive to plant thousands of healthy churches in communities where Christ is not yet known!

David Garrison, PhD
University of Chicago, defines Church Planting Movements as rapidly multiplying indigenous churches planting churches that sweep across a people group or population segment. Garrison's *Church Planting Movements: How God Is Redeeming a Lost World* signaled a breakthrough in missionary church planting. After the publication of Garrison's book in 2004 it became impossible to talk about missions without referencing Church Planting Movements. Church Planting Movements examines more than two-dozen movements of multiplying churches on five continents. After presenting these case studies, Garrison identifies ten universal elements present in each movement. He then broadens the circle of examination to identify a further ten common

characteristics, factors identified in most, but not all, of the movements. He concludes his examination with a list of "Seven Deadly Sins," i.e. harmful practices that stifle or impede Church Planting Movements. Important for evangelical readers, the author returns to his findings to see how they stand up to the light of Scripture. What he discovers is that Church Planting Movements are much more consistent with the New Testament lay-led house-church movements that swept rapidly through the Mediterranean world in the face of hostile opposition than today's more sedentary professional institutionalized Christianity. The Book of Acts Regal Books

This book tells the story of the revitalization of Guilford Baptist Church in northern Virginia. Weaving together scripture and biblical principles with humor and personal anecdotes, author Michael McKinley asserts that a pastor's faithful exposition of God's Word, passion for sharing the gospel, and care in the training of other godly leaders are more important than the size of his church. McKinley honestly shares his own fears and rookie mistakes, along with encouraging stories of how God moved at Guilford Baptist. We are

reminded that God uses weak and fearful pastors in plants and revitalizations; church planting is indeed for "wimps." For pastors and seminarians considering a church plant and those already struggling in their own fledgling congregations, this book is a thoughtful and encouraging resource.

As a response to the unique challenges facing the twenty-first-century American church, church

planting has become a popular topic. But at a time when churches that spread the seed of the Word through preaching, the sacraments, and prayer are greatly needed, much of the

focus has been on planting churches that adapt pop culture to meet consumer demand. In *Planting, Watering, Growing*, the authors of this collection of essays weave together theological wisdom,

personal experiences, and practical suggestions, guiding readers through the foundations and methods of planting confessional churches that uphold the Word of God.
