BENJAMIN BENTON

The Man of the Moment Oxford
University Press, USA
Over the last five years, widespread

concern about the effects of social media on democracy has led to an explosion in research from different disciplines and corners of academia. This book is the first of its kind to take stock of this emerging multi-disciplinary field by synthesizing what we know, identifying what we do not know and obstacles to future research, and charting a course for the future inquiry. Chapters by leading scholars cover major topics – from disinformation to hate speech to political advertising – and situate recent developments in the context of key policy questions. In addition, the book canvasses existing reform proposals in order to address widely perceived threats that social media poses to democracy. This title is also available as Open Access on Cambridge Core.

This book explores the spiritual transformation of Mohandas Gandhi to the Mahatma. Beginning with his childhood and his desire to search for the Truth from an early age, it explores the influence of western thought on the young lawyer, leading to an inner conflict that drew him to the study of comparative religion. Gandhi came to believe in the equality of all religions and the principles of Truth and non-violence which he applied to every aspect of life,

including politics. In his later years he found focus and direction, understanding the importance of prayer and discipline. As the Mahatma, his life exemplified spiritual practice and Truth. Leading India to freedom through satyagraha, he revealed the importance and relevance of non-violence in every aspect of life.

In a powerful debut novel that moves between the crowded streets of London and the desolate mountains of Iran,

Yasmin Crowther paints a stirring portrait of a family shaken by events from decades ago and worlds away. On a rainy day in London the dark secrets and troubled past of Maryam Mazar surface violently, with tragic consequences for her daughter, Sara, and her newly orphaned nephew. Maryam leaves her English husband and family and returns to the remote Iranian village where her story began. In a quest to piece their life back together, Sara follows her mother and finally learns the terrible price Maryam once had to pay for her freedom, and of the love she left behind. Set against the breathtaking beauty of two very different places, this stunning family drama transcends culture and is, at its core, a rich and haunting narrative about mothers and daughters.

In 2005, *The Woman at the Washington Zoo* was published to major critical acclaim. The late Marjorie Williams possessed "a special voice, one capable not just of canny political observations but of tenderness and bracing intimacy," observed the *New York Times Book Review*. Now, in a collection of profiles with the richness of short fiction, Williams limns the personalities that dominated politics and the media during the final years of the twentieth century. In these pages, Clark Clifford grieves "in his laborious baritone" a bank scandal's blow to his re-pu-taaaaaay-shun. Lee Atwater likens himself to Ulysses and pleads, "tah me to the mast!" Patricia Duff sheds "precipitous tears" over her

divorce from Ronald Perelman, resembling afterwards "a garden refreshed by spring rain." Reputation illuminates our recent past through expertly drawn portraits of powerful - and messily human - figures.

Bringing together both leading international scholars and emerging academic talent, *Media Accountability in the Era of Post-Truth Politics* maps the current state of media accountability in Europe and provides fresh perspectives for future developments in media and communication fields. As the integrity of the international media landscape is challenged by far-reaching transformations and the rise of "fake news," the need for a functional system

of media regulation is greater than ever. This book addresses the pressing need to re-evaluate and redefine the notion of accountability in the fast-changing field of journalism and “information provision.” Using comparative research and empirical data, the book’s case studies address the notion of media accountability from various perspectives, considering political and societal change, economic, organisational and technological factors, and the changing role of media audiences. By collecting and juxtaposing these studies, the book provides a new discussion for the old question of how we can safeguard free and responsible media in Europe – a question that seems more urgent than ever. Media Accountability in the Era of Post-Truth Politics is an essential read for

Management decisions on appropriate practices and policies regarding tropical forests often need to be made in spite of innumerable uncertainties and complexities. Among the uncertainties are the lack of formalization of lessons learned regarding the impacts of previous programs and projects. Beyond the challenges of generating the proper information on these impacts, there are other difficulties that relate with how to socialize the information and knowledge gained so that change is transformational and enduring. The main

complexities lie in understanding the interactions of social-ecological systems at different scales and how they varied through time in response to policy and other processes. This volume is part of a broad research effort to develop an independent evaluation of certification impacts with stakeholder input, which focuses on FSC certification of natural tropical forests. More specifically, the evaluation program aims at building the evidence base of the empirical biophysical, social, economic, and policy effects that FSC certification of natural forest has had in Brazil as well as in other tropical countries. The contents of this volume highlight the opportunities and constraints that those responsible for managing natural forests for timber production have experienced in their

efforts to improve their practices in Brazil. As such, the goal of the studies in this volume is to serve as the foundation to design an impact evaluation framework of the impacts of FSC certification of natural forests in a participatory manner with interested parties, from institutions and organizations, to communities and individuals.

Journalism V&S Publishers

Journalism entered the twenty-first century caught in a paradox. The world had more journalism, across a wider range of media, than at any time since the birth of the western free press in the eighteenth century. Western journalists had found themselves under a cloud of suspicion: from politicians, philosophers, the general public, anti-globalization radicals, religious groups, and even from fellow journalists. Critics argued that the news industry had lost its moral bearings, focusing on high investment returns rather than reporting and analysing the political, economic, and social issues of the day. Journalism has a central and profound impact on our worldview; we find it everywhere from newspapers and television, to radio

and the Internet. In the new edition of this thought-provoking and provocative Very Short Introduction, Ian Hargreaves examines the world of contemporary journalism. By looking not only at what journalism has been in the past, but also what it is becoming in the digital age, he examines the big issues relating to reportage, warfare, celebrity culture, privacy, and technology worldwide.
