Education and Racism is a concise and easily accessible primer for introducing undergraduate and graduate students to the field of race and education. Designed for introductory courses, each chapter provides an overview of a main issue or dilemma in the research on racial inequality and education and the particular approaches that have been offered to explain or address them. Theme-oriented chapters include curriculum, school (re)segregation, and high stakes testing as well as discussions on how racism intersects with other forms of marginality, like socioeconomic status. The focus on particular educational themes is the strength of this book as it paints a portrait of the systematic nature of racism. It surveys multiple approaches to racism and education and places them in conversation with one another, incorporating both classical as well as contemporary theories. Although conceptually rich and dense with critical perspectives and empirical study, the book uses clear and transparent language throughout for easy comprehension. Perfect for courses in Multicultural Education, Sociology of Education, Ethnic Studies and more, Education and Racism is the ideal primer for engaging students new to race and education without sacrificing the content for those who are already familiar with the field.

Relationships: understand the spiritual dimension of race relations and how authentic connections make reconciliation real and motivate you to act. Commitment: consistently fight systemic racism and work for racial justice by orienting your life to it. Tisby offers practical tools for following this model and suggests that by applying these principles, we can help dismantle a social hierarchy long stratified by skin color. The Racial Healing Handbook Sounds True

In this scintillating combination of critical race theory, social commentary, veganism, and gender analysis, media studies scholar Aph Ko offers a compelling vision of a reimagined social justice movement marked by a deconstruction of the conceptual framework that keeps activists silo-ed fighting their various oppressions—and one another. Through a subtle and extended examination of Jordan Peele's hit 2017 movie *Get Out*, Ko shows the many ways that white supremacist notions of animality and race exist through the consumption and exploitation of flesh. She demonstrates how a critical historical and social understanding of anti-Blackness can provide the pathway to genuine liberation. Highly readable, richly illustrated, and full of startling insights, *Racism as Zoological Witchcraft* is a brilliant example of the emerging discipline of Black veganism by one of its leading voices.

A FINANCIAL TIMES BEST BOOK OF THE YEAR • An essential tool for individuals, organizations, and communities of all sizes to jump-start dialogue on racism and bias and to transform well-

intentioned statements on diversity into concrete actions—from a leading Harvard social psychologist. FINALIST FOR THE FINANCIAL TIMES AND MCKINSEY BUSINESS BOOK OF THE YEAR AWARD • LONGLISTED FOR THE PORCHLIGHT BUSINESS BOOK AWARD "Livingston has made the important and challenging task of addressing systemic racism within an organization approachable and achievable."—Alex Timm, co-founder and CEO, Root Insurance Company How can I become part of the solution? In the wake of the social unrest of 2020 and growing calls for racial justice, many business leaders and ordinary citizens are asking that very question. This book provides a compass for all those seeking to begin the work of anti-racism. In *The Conversation*, Robert Livingston addresses three simple but profound questions: What is racism? Why should everyone be more concerned about it? What can we do to eradicate it? For some, the existence of systemic racism against Black people is hard to accept because it violates the notion that the world is fair and just. But the rigid racial hierarchy created by slavery did not collapse after it was abolished, nor did it end with the civil rights era. Whether it's the composition of a company's leadership team or the composition of one's neighborhood, these racial divides and disparities continue to show up in every facet of society. For Livingston, the difference between a solvable problem and a solved problem is knowledge, investment, and determination. And the goal of making organizations more diverse, equitable, and inclusive is within our capability. Livingston's lifework is showing people how to turn difficult conversations about race into productive instances of real change. For decades he has translated science into practice for numerous organizations, including Airbnb, Deloitte, Microsoft, Under Armour, L'Oreal, and JPMorgan Chase. In *The Conversation*, Livingston distills this knowledge and experience into an eye-opening immersion in the science of racism and bias. Drawing on examples from pop culture and his own life experience, Livingston, with clarity and wit, explores the root causes of racism, the factors that explain why some people care about it and others do not, and the most promising paths toward profound and sustainable progress, all while inviting readers to challenge their assumptions. Social change requires social exchange. Founded on principles of psychology, sociology, management, and behavioral economics, *The Conversation* is a road map for uprooting entrenched biases and sharing candid, fact-based perspectives on race that will lead to increased awareness, empathy, and action.

Practicality of Anti-Racism Routledge

In 2008 the United States elected its first black president, and recent polls show that only twenty-two percent of white people in the United States believe that racism is a major societal problem. On the surface, it may seem to be in decline. However, the evidence of discrimination persists throughout our society. Segregation and inequalities in education, housing, health care, and the job market continue to be the norm. Post 9/11, increased insecurity and fear have led to an epidemic of the scapegoating and harassment of people of color. *Uprooting Racism* offers a framework for understanding institutional racism. It provides practical suggestions, tools, examples, and advice on how white people can intervene in interpersonal and organizational situations to work as allies for racial justice. Completely revised and updated, this expanded third edition directly engages the reader through questions, exercises, and suggestions for action, and takes a detailed look at current issues such as affirmative action, immigration, and health care. It also includes a wealth of information about specific cultural groups such as Muslims, people with mixed-heritage, Native Americans, Jews, recent immigrants, Asian Americans, and Latinos. Previous editions of *Uprooting Racism* have sold more than fifty thousand copies. Accessible, personal, supportive, and practical, this book is ideal for students, community activists, teachers, youth workers, and anyone interested in issues of diversity, multiculturalism, and social justice. Paul Kivel is an award-winning author and an accomplished trainer and speaker. While scholars have been developing valuable research on race and racism for decades, this work does not often reach the beginning college student or the general public, who rarely learn a basic history of race and racism. If we are to dismantle systemic racism and create a more just society, people need a place to begin. This accessible, introductory, and interdisciplinary guide can be one such place. Grounded in critical race theory, this book uses the metaphor of the Racism Machine to highlight that race is a social construct and that racism is a system of oppression based on invented racial categories. It debunks the false ideology that

race is biological. As a manual, this book presents clear instructions for understanding the history of race, including whiteness, starting in colonial America, where the elite created a hierarchy of racial categories to maintain their power through a divide-and-conquer strategy. As a toolbox, this book provides a variety of specific action steps that readers can take once they have developed a foundational understanding of the history of white supremacy, a history that includes how the Racism Machine has been recalibrated to perpetuate racism in a supposedly "post-racial" era.

The death of George Floyd and subsequent Black Lives Matter protests have made clear to everyone the vicious reality of racism that persists today. Many of those privileged enough to be distanced from racism are now having to come to terms with the fact that they continue to prosper at the detriment of others. Having spent the last four years researching, writing, and speaking about the benefits of diversity for society, June Sarpong is no stranger to educating and challenging those that have been enjoying the benefits of a system steeped in systemic racism without realizing its true cost. In *The Power of Privilege*, June will empower those fortunate enough not to be 'otherised' by mainstream Western society to become effective allies against racism, both by understanding the roots of their privilege and the systemic societal inequities that perpetuates it. *The Power of Privilege* offers practical steps and action-driven solutions so that those who have been afforded privilege can begin undoing the limiting beliefs held by society, and help build a fairer future for all.

A "Be-It-Yourself" Guide to Anti-racism for Churches and Church Leaders Whether you have been an ally for years or just recently opened your eyes to racial injustice, guiding your predominantly white church toward anti-racism is a daunting task. Where do you even begin? White churches especially feel an urgency to respond but at the same time suffer a sense of overwhelmingness and futility, as if no one action, sermon series, or service project will solve the problem of racism in America. And they're right. Instead, we must begin to look deeply at our organizations—our traditions, our ministries, our leadership, our ways of making decisions, our ways of interacting with the world beyond the church—to identify and address implicit biases and to discover how white pseudo-supremacy has been encoded into our way of "doing church." *Wait—Is This Racist?* is here to guide you and your church through this challenging and uncomfortable work. Intentionally interactive, practical, and biblically based, *Wait—Is This Racist?* guides church leaders and staff through an examination of all aspects of church life, including leadership, preaching and liturgy, music, small groups, buildings and grounds, and more, to help churches create an action plan that will take them toward not only becoming anti-racist but also actually doing anti-racist work. Offering educational tips, powerful stories, and insightful questions, anti-racism consultants Kerry, Bryana, and Josh will accompany you through this necessary work so that your church can truly become a justice-oriented organization that leans more fully into the kin-dom of God. Features: A clear audit of church operations and reasons why this work is so important Workbook-style questions at the end of each chapter A workable action plan for churches to implement what they have learned Tips, encouragement, and questions for BIPOC leaders in primarily white churches Helpful glossary of terms to aid general understanding
