*Russian Prose* Internal Combustion Engines and Tractors, Their Development, Design, Construction, Function and Maintenance Farm Tractor Systems Maintenance & Operation

This book comprehensively documents the International Harvester Company's activities from its inception to its merger with Case as Case IH and their influence in Australia and New Zealand. IHC began with a merger of harvesting machinery companies to form the International Trust, the world's biggest farm machinery enterprise at the time. Then IHC became involved with tractors to become the world's largest tractor and full-line machinery maker, setting production records that stand to this day.

**A Practical Treatise Covering Every Branch of Up-to-date Gas Tractor Engineering, Driving and Maintenance in a Non-technical Manner. Considers Fully All Types of Power Plants and Their Components, Methods of Drive and Speed Changing Mechanisms. Describes, Design, Construction, and Operation of Latest Tractors, and Their Installation and Adjustment, as Well as Practical Application of Tractors in the Field** East African Publishers

Jan. 31, 1967- lists Nebraska tractor tests.

**Tractor-trailer Trucker** Dk Pub

Identifies the different parts of a tractor and their functions.

*National Land and Irrigation Journal* CreateSpace

This 2001 book offers an examination of functional explanation as it is used in biology and the social sciences, and focuses on the kinds of philosophical presuppositions that such explanations carry with them. It tackles such questions as: why are some things explained functionally while others are not? What do the functional explanations tell us about how these objects are conceptualized? What do we commit ourselves to when we give and take functional explanations in the life sciences and the social sciences? McLaughlin gives a critical review of the debate on functional explanation in the philosophy of science. He discusses the history of the philosophical question of teleology, and provides a comprehensive review of the post-war literature on functional explanation. What Functions Explain provides a sophisticated and detailed Aristotelian analysis of our concept of natural functions, and offers a positive contribution to the ongoing debate on the topic.

*International Harvester Tractors & Equipment ANZ*

A link between machine functionality, operations, performance and decision making in the management of power sources and field operations were presented in this book. Depreciation and functional deviation of a machine from its original state at manufacture could put the life of a machine in danger of breakdown or obsolescence, which is counted a loss to any such organization or the entrepreneur. To avoid such losses, an understanding of machine systems functionality and a well organized maintenance programme designed to maintain, prevent or restore machine to near original state is required. Vocational training and entrepreneurship education in Nigeria's tertiary institutions has made possible a do-it-yourself skill acquisition in machine fault tracking, maintenance and repairs. A bimodal training programme packaged and presented in this book is all that is required for managerial decision making, maintenance and qualitative service delivery.
