The Children's Hour "Winner of the Pulitzer Prize, this is the groundbreaking satiric fantasy follows the extraordinary Antrobus family down through the ages from the time of 'The War' surviving flood, fire, pestilence, locusts, the ice age, the pox and the double feature, a dozen subsequent wars and as many depressions. Ultimately, they are the stuff of which heroes and buffoons are made. Righteously angry, riotously funny, and wise to the tensions between abstract policy and lived experience, Ike Holter's play *Exit Strategy* centers on vivid, unforgettable characters struggling to maintain faith in a vocation that is being determinedly undermined. Drawing from the headlines, *Exit Strategy* is set in Chicago and tells the story of a fictional public high school slated for closure at the end of the year. Despite funding cuts, bureaucrats run amok, apathy, and a rodent infestation, a small, multiracial group of teachers launch a last-minute effort to save the school, and put their careers, futures, and safety in the hands of a fast-talking administrator who may be in over his head. The tenuous situation also raises fears and anxieties among students,

and within the volcanic neighborhood that is home to the school. Holter has said that *Exit Strategy* was inspired by the 2013 mass closure of forty-nine Chicago public schools, which displaced nearly 12,000 children—the majority of directly impacted students were African American and Latinx. Hailed as "riveting," "sharp," and "richly metaphoric" by critics, the play indicts how we educate our children in big American cities, and shows why gaps between haves and have-nots continue to grow. *Exit Strategy* is one of seven plays in Ike Holter's cycle of works set in Chicago or Chicago-inspired neighborhoods.

From generation to generation, three outstanding American Jewish directors—William Wyler, Sidney Lumet, and Steven Spielberg—advance a tradition of Jewish writers, artists, and leaders who propagate the ethical basis of the American Idea and Creed. They strive to renew the American spirit by insisting that America must live up to its values and ideals. These directors accentuate the ethical responsibility for the other as a basis of the American soul and a source for strengthening American liberal democracy. In the manner of the jeremiad, their films challenge America to achieve a liberal democratic culture for all people by becoming more inclusive and by modernizing the American Idea. Following an introduction that relates aspects of modern ethical thought to the search for America's soul, the book divides into three sections. The Wyler section focuses on the director's social vision of a changing America. The Lumet section views his films as dramatizing Lumet's dynamic and aggressive social and ethical conscience. The Spielberg section tracks his films as a movement toward American redemption and renewal that aspires to realize Lincoln's vision of America as the hope of the world. The directors, among many others, perpetuate a "New Covenant" that advocates change and renewal in the American experience.

Tartuffe; Or, The Hypocrite Harper Collins

The Seagull Anton Pavlovich Chekhov - The best-selling official for Novel that everybody is looking for. The Seagull is a play by Russian dramatist Anton Chekhov, authored within 1895 as well as created in 1896. The Seagull is usually regarded as the first of his 4 major plays. It dramatizes the artistic and romantic conflicts between 4 characters: the popular middlebrow story writer Boris Trigorin, the ingenue Nina, the fading actress Irina Arkadina, as well as the son of her the symbolist playwright Konstantin Treplyov. Though the character of Trigorin is regarded as Chekhov's best male role as Chekhov's other full-length plays, *The Seagull* is based in an ensemble cast of varied, completely developed characters. In distinctions to the melodrama of mainstream 19th-century theatre, lurid steps (such as Konstantin's suicide attempts) aren't shown onstage. Characters tend to talk in tactics that skirt around problems instead of addressing them directly; quite simply, their lines are full of what's known in remarkable practice as subtext. The opening night of the very first creation was a popular failure. Vera Komissarzhevskaya, taking part in Nina, was so unnerved through the hostility of this market that she lost voice. The audience was left by Chekhov and spent the previous 2 actions behind the scenes. When supporters published to him the generation, later on, grew to become successful, he assumed that these were simply attempting to be sort. When Konstantin Stanislavski, the seminal Russian theatre professional of the moment, directed it inside 1898 for the Moscow Art Theatre of his, the play would have been a triumph. Stanislavski's creation became "one of probably the greatest incidents in the record of Russian theatre and among probably the greatest brand new advancements in the history of planet drama". Stanislavski's *The Seagull* was caused by direction to be perceived as a tragedy via overzealousness with the idea of subtext, while Chekhov intended it to become a comedy.

Clearly babies come into the world remarkably receptive to its wonders. Their alertness to sights, sounds, and even abstract concepts makes them inquisitive explorers--and learners--every waking minute. Well before formal schooling begins, children's early experiences lay the foundations for their later social behavior, emotional regulation, and literacy. Yet, for a variety of reasons, far too little attention is given to the quality of these crucial years. Outmoded theories, outdated facts, and undersized budgets all play a part in the uneven quality of early childhood programs throughout our country. What will it take to provide better early education and care for our children between the ages of two and five? *Eager to Learn* explores this crucial question, synthesizing the newest research findings on how young children learn and the impact of early learning. Key discoveries in how

young children learn are reviewed in language accessible to parents as well as educators: findings about the interplay of biology and environment, variations in learning among individuals and children from different social and economic groups, and the importance of health, safety, nutrition and interpersonal warmth to early learning. Perhaps most significant, the book documents how very early in life learning really begins. Valuable conclusions and recommendations are presented in the areas of the teacher-child relationship, the organization and content of curriculum, meeting the needs of those children most at risk of school failure, teacher preparation, assessment of teaching and learning, and more. The book discusses: Evidence for competing theories, models, and approaches in the field and a hard look at some day-to-day practices and activities generally used in preschool. The role of the teacher, the importance of peer interactions, and other

relationships in the child's life. Learning needs of minority children, children with disabilities, and other special groups. Approaches to assessing young children's learning for the purposes of policy decisions, diagnosis of educational difficulties, and instructional planning. Preparation and continuing development of teachers. *Eager to Learn* presents a comprehensive, coherent picture of early childhood learning, along with a clear path toward improving this important stage of life for all children.

A heartbreaking and powerful story about a black boy killed by a police officer, drawing connections through history, from award-winning author Jewell Parker Rhodes. Only the living can make the

world better. Live and make it better. Twelve-year-old Jerome is shot by a police officer who mistakes his toy gun for a real threat. As a ghost, he observes the devastation that's been unleashed on his family and community in the wake of what they see as an unjust and brutal killing. Soon Jerome meets another ghost: Emmett Till, a boy from a very different time but similar circumstances. Emmett helps Jerome process what has happened, on a journey towards recognizing how historical racism may have led to the events that ended his life. Jerome also meets Sarah, the daughter of the police officer, who grapples with her father's actions. Once again Jewell Parker Rhodes deftly weaves historical and socio-political layers into a gripping and poignant story about how children and families face the complexities of today's world, and how one boy grows to understand American blackness in the aftermath of his own death.
