Review By James M. Stevens, DMA, Chairman of the Music Department, Free Will Baptist Bible College, Nashville, TN "I've looked over your materials and I think you're doing and are going to do a great job with this! You obviously have a passion for it and communicate it clearly and effectively. I like the "CCI" concept as well and your ability to interject your personality in your writing in a very pleasing way. I really like what you've done. It's very impressive! I like the personal tone you use which I believe will be just right. You present a lot of good music theory in a non-threatening manner. I've planned for a long time to write an improvisation book, and I think you may have inspired me with your very diligent and creative work. Your book is done in a most excellent way! I highly recommend the creative and inspirational techniques of Rosa Suen for church pianists wanting to improve their improvisational skills for worship! In this remarkable memoir, Anna Goldsworthy recalls her first steps towards a life in music, from childhood piano lessons with a local jazz muso to international success as a concert pianist. As she discovers passion and ambition, and confronts doubt and disappointment, she learns about much more than tone and technique. This is a story of the getting of wisdom, tender and bittersweet. With wit and affection, Goldsworthy captures the hopes and uncertainties of youth, the fear and

exhilaration of performing, and the complex bonds between teacher and student. An unforgettable cast of characters joins her: her family; her friends and rivals; and her teacher, Mrs Sivan, who inspires and challenges her in equal measure, and who transforms what seems an impossible dream into something real and sustaining.

What is Music Literacy? attempts to redefine music literacy with a more expansive meaning than is commonly in use, and to articulate the potential impact of these ideas on music teaching practice. The notion of music literacy has involved the ability to read and write music scores. However, this understanding does not extend theory to identify all music texts, nor to offer a thorough treatment of what impact an expanded notion of music literacy might have on music instruction in the classroom and in ensembles. This book provides a formal, expansive redefinition of music literacy. The author offers practical ideas for attending more effectively to music literacy in classroom instruction. The book highlights common elements in the music classroom: the music score, the conductor, surrounding ensemble members, the musical model, the musical instrument, and presentations/recordings. It also describes four orientations that correspond to the National Core Music Standards (2014) and that characterize humans' interactions with music: creator, performer, responder, and connector. What is Music Literacy? uses these orientations, along with a focus on authentic music texts and literacies, to present literacy-based guidelines for music education along with numerous vignettes that describe actual literacy instructional events.
