Every secondary, subject-matter teacher will find strategies, easy-to-integrate activities, and tips on selecting words and planning lessons. As you teach with these strategies, your English language learners will be able to: • tap into prior knowledge through cross-language transfer and cross-cultural comparisons; • use concept-based vocabulary, such as analogies, metaphorical language, themes, sources, inquiry, and graphic organizers; • interact with new words in context to decipher euphemisms, words with multiple meanings, connotation, and context clues; • engage in interactive read-alouds, think-alouds, and wordplay; and • master vocabulary through writing. Charts, student examples, suggested resources, and subject-matter vocabulary lists give teachers the hands-on tools they need to teach the concepts behind words as well as the actual definitions, spelling, and sounds. Lee Mountain, professor, curriculum and instruction, College of Education, University of Houston The Vocabulary Teacher?s Book of Lists offers content for literally hundreds of vocabulary improvement lessons for elementary and secondary teachers, self-improving adults, home schoolers, and students studying for their SATs. While there are dozens of shorter high interest lists of words, the core of the book is based on Latin and Greek roots and prefixes. But the largest list is Homophones. In fact it is one of the largest lists of homophones you will ever use. This list, like many others, is appropriate for spelling lessons or writer?s reference as well as vocabulary improvement. There are two dozen teaching methods in the Methods chapter and teaching suggestions to help improve reading and writing are scattered throughout the book. The lessons can be as short as a word-a-day or as long as a school year. The range of difficulty can go from upper elementary to college freshman classes, and be as diverse as adult education to English language learners.
